LAW 41.7.1 Any delivery, which passes or would have passed, without pitching, above waist height of the striker standing upright at the popping crease, is to be deemed dangerous and unfair, whether or not it is likely to inflict physical injury on the striker. If the bowler bowls such a delivery the Umpire shall immediately call and signal No Ball. When the ball is dead, the Umpire shall caution the bowler, indicating that this is a first and final warning. RULE 4 TWO DAY MATCHES

4.1 BATTING RESTRICTIONS

14U competitions - batters must compulsory retire at reaching 50 runs in a two day game. (They shall be recorded as RTNO).

4.1.1 Retiring batters (who have been retired prior to reaching the compulsory retiring limit) may return to the crease to bat only at the fall of the final wicket in that innings. They must then retire if and when they reach the allowable maximum score and be recorded as Retired Not Out and not counted as a wicket lost.

4.2 No player will be allowed to bat without a helmet including full face protective mask.

4.3 BOWLING RESTRICTIONS

All 14 & Under competitions - eight (8) overs per bowler maximum per innings in a two day game.

4.3.1 Players can bowl during any stage of an innings regardless of whether or not they have been off the field. (Medium and Fast Bowlers restrictions as below still apply).

Medium and Fast Pace Bowlers (i.e. A bowler for which the wicket-keeper would normally stand back) shall not bowl more than six (5) consecutive overs in any period of bowling during a match.

If more than one over was bowled in a player's immediate previous bowling period, they shall not resume bowling unless the subsequent overs from the same end equals the overs bowled by them in that period.

NOTE: A new period (bowling spell) is allowed if there is a 30 minute break or it is the start of a new day.

4.3.2 Four (4) overs to be bowled from the same end prior to changing ends (Normal rotation of bowler's shall apply).

4.3.3 LAW 41.7 - BOWLING OF DANGEROUS AND UNFAIR NON-PITCHING DELIVERIES

LAW 41.7.1 Any delivery, which passes or would have passed, without pitching, above waist height of the striker standing upright at the popping crease, is to be deemed dangerous and unfair, whether or not it is likely to inflict physical injury on the striker. If the bowler bowls such a delivery the Umpire shall immediately call and signal No Ball. When the ball is dead, the Umpire shall caution the bowler, indicating that this is a first and final warning. The Umpire shall also inform the other Umpire, the Captain/Coach of the fielding side and the batters of what has occurred. This caution shall apply to that bowler throughout the innings.

LAW 41.7.2 Should there be any further such delivery by the same bowler in that innings, the Umpire shall:

- (a) call and signal No ball
- (b) when the ball is dead, direct the Captain/Coach of the fielding side to suspend the bowler immediately from bowling
- (c) inform the other Umpire for the reason for this action.

The bowler thus suspended shall not be allowed to bowl again in that innings. If applicable, the over shall be completed by another bowler, who shall neither have bowled any part of the previous over, nor be allowed to bowl any part of the next over.

Additionally the Umpire shall report the occurrence to the batters and, as soon as practicable, to the Captain of the batting side.

The Umpires together shall report the occurrence as soon as possible after the match to the Executive of the offending side and to the BCA via the team sheet, who shall take such action as is considered appropriate against the Captain, any other individuals concerned and, if appropriate, the team.

If the Umpire at the Bowler's end considers that such a delivery has been bowled "deliberately" at the batter he/she shall follow the process outlined in Law 41.7.2 without warning.

4.4 **MAXIMUM BALLS IN AN OVER**

1ST XI SECTION 8 BALLS

2ND XI SECTION 6 BALLS

An over bowled shall be restricted to the maximum number balls per over as above when wide balls or no balls are included in the over.

4.4.1 In all Junior matches on hard wickets, any ball bowled that pitches off the side of the wicket, bounces more than twice before it reaches the batter or runs along the ground, shall be called a "No Ball".

4.5 **WICKET KEEPERS**

All players under the age of 18 participating in BCA competitions shall wear an approved helmet including full face protective mask when keeping wicket at all times.

4.6 Each side will be permitted to bat for fifty (50) overs, as usual, for BCA Junior matches.

4.6.1 The side batting first will bat for 25 overs or 85 minutes at which time the innings shall cease and the side batting second shall receive only the same number of overs as bowled to the side batting first.

On the second day's play the side that batted second on the first day will continue on to bat for the final 25 overs or 85 minutes at which time the innings shall cease and the side batting first shall receive only the same number of overs as bowled to the side batting second.

4.6.2 Neither side will be permitted more than 50 overs in its innings, other than as by Rule 4.6.6.

4.6.3 Although each innings will be split into two sections, at the commencement of the second section of each innings play (and score) will continue exactly where it stopped after the first section of the innings.

4.6.4 Any dismissed or retired batter from the first section of the innings will not be permitted to bat in the second section of the innings.

4.6.5 At the completion of the first days, each ball used will be signed by the opposition Coach. The Coaches are then responsible for keeping their own team's ball until the next day's play unless there is a BCUA appointed Umpire who will be responsible for keeping the balls until the next day's play. The state of each ball may not be altered by any person once it has been signed until play resumes. At the recommencement of each innings the same ball that was used for the first section of the innings must again be used for the second section of the innings.

4.6.6 Should either side be dismissed before its allocated 50 overs then the opposing side will be permitted to bat for as long as it desires or can or until they declare their innings closed. The dismissed team has no automatic right to bat during any period of time of the second day.

4.7 If the first day of the match is completely washed out then a 25 over innings one day match will be played on the second day. In this case, individual batting and bowling restrictions for one day matches will apply.

4.7.1 If the second day of the match is completely washed out the result will be determined by the score on the first days play, as long as both sides have had the opportunity to bat for their allocated overs. If either side did not have opportunity to bat for their allocated overs, the match will be deemed to be a draw.

4.8 **INTERRUPTIONS TO PLAY**

- 4.8.1 If time is lost due to rain on the first day yet there is some play there will be 1 over for every 4 minutes lost deducted from the match's scheduled 100 overs. Hence for every 8 minutes lost the amount of overs permitted for each team in the first section of its innings (normally 25 overs) will be reduced by 1 over.
- 4.8.2 Should time be lost towards the end of the first morning and the side batting second on the first morning has not completed the first innings (yet both sides have batted for at least 15 overs) then the first section of that side's inning will be completed at commencement of play on the second morning.
- Then at the completion of that side's first section of its innings the Umpires will calculate, as per Rule 4.8.1, how many overs each side will be entitled to bat during the second section of their innings.
- 4.8.3 In the event of time being lost and the recalculation of the amount of overs to be bowled at each side, each side must still receive the same amount of overs in both the first and second sections of their innings as the other side. Otherwise the match will be deemed drawn.
- 4.8.4 If either team fails to get 15 overs when batting on the first day, because of loss of time, then all play and scores will be disregarded on that days first day and a 25 over innings one day match will be played on the second day.
- 4.8.5 Where a first innings result has been obtained, the match shall continue until the scheduled finishing time or until the scheduled overs per day have been bowled. However, when a first innings result has been reached and on agreement of both Captains/Accredited Coaches, stumps may be drawn at or any time after 11.00 am (Saturday morning) on the second day of play.
- 4.8.6 The Pennant Committee reserves the right to call matches off on any day preceding the game, in line with Senior rules regarding extreme heat conditions.

5.4 **WICKET KEEPERS**

All players under the age of 18 participating in BCA competitions shall wear an approved helmet including full face protective mask when keeping wicket at all times.

5.5 **INNINGS CLOSURES**

- 5.5.1 In one day matches the time shall be divided equally and if the side batting first has not previously completed its innings, the innings shall be compulsorily closed on the completion of the bowling of 25 overs, or 85 minutes after the starting time.
- 5.5.2 If the innings of the side batting first is compulsorily closed, then the side batting second, if not previously dismissed, shall be entitled to bat only for the bowling of the same number of overs as has been bowled to the side batting first.
- 5.5.3 If the innings of the side batting first has been completed other than by compulsory closure, then the side batting second, if not previously dismissed, shall be entitled to bat for at least the same number of overs as bowled to the side batting first, or any greater number possible up to the allowed innings time.
- 5.5.4 If the game is interrupted for an aggregate of more than thirty (30) minutes by bad weather conditions, during either period of allotted time, the game shall thereupon be played under ordinary conditions until the scheduled finishing time.
